This Month's Meeting: "On Site"

Location: KOGD Ogden Airport (Old Terminal)

Subject: O2 System Installation and Use

Thursday, 12 January 2012 1900 HRS, 0300 Z, or 7:00 PM

PREZ SEZ:

Another year is upon us. I just renewed our chapter with EAA headquarters and the State of Utah. So, we are set for another year of activities and good association with each other. We had our board meeting just after the holidays where we discussed upcoming activities and meetings for the year. I think we have some good plans for the coming year and look forward to having all of you join us as often as you are able. We all benefit by having more of us participating. In that vein of thought, I again invite all of you to share with us

your talents, insights, and stories. If you would like a portion of a meeting to do this, just let us know. We will work you into our meeting schedule.

It looks like our plans for Young Eagles is shaping up again for a great year thanks to Tom Holt and all of you who support him. We have a few dates selected and will update you as the plans are firmed up. We also have the Hill AFB open house this year. We are considering having a Chapter 58 booth to recruit Young Eagles and share our passion for flight with a larger audience.

We will have couple of new or reborn aircraft in the chapter this year. We look forward to hearing about these first flights and sharing in the joy of completing labors of love.

This week we will have a presentation by Rene Felker about oxygen system installation, and maintenance. Time permitting we may also show a DVD about Oshkosh 2010. It is never too early to start planning your adventures in Oshkosh.

I hope to see many of you this week.

Todd Parker, Prez

FROM THE EDITOR:

PLEASE NOTE THAT THE ADDRESS HAS CHANGED!!! The old address has been given to another party and so we got reassigned. The box number is C-3.

The official mailing address for the chapter is:

Flights Through December 2010: 500

Flights In 2011: 111

Next Event: 19 May 2012

.....

Subject: EAA members doing a Flight around the world

Hello Todd!

We are Detlef & Liliana, two EAA members flying around the world and have done this exciting documentary about our first part of our flight.

Here the link to the trailer www.dl-pictures.com and the link to our website www.flight-around-the-world.org

In the next days we would like to send you a few flyers (around 5 flyers). It would be very nice of you if you could hang them in a visible spot.

We are sure that many pilots would enjoy watching this unique and exciting documentary. If this is ok with you, could you please send us your mailing address and to whom to send them to?

As a special gift for the EAA members, we are giving a 10% rebate on the DVD instead giving the rebate to AMAZON.

You just have to include the PROMO CODE "EAA" and your EAA Chapter # on the order.

After finishing our round the world journey we would be happy to visit your chapter personally while flying around the United States.

We wish you and EAA 58 Chapter the very best for 2012 filled with health, happiness and plenty of flying time!

Thanks in advance

Detlef and Liliana Heun

EAA member #771214

Re: LSX SeaRey Amphibian

Hi Todd,

My name is Tom Binsfeld and I represent Progressive Aerodyne out here on the West coast. I have a SeaRey up here in Chico, CA for you and your chapter to take a demo flight in. The only way to know if the SeaRey is for you is to spend a couple of hour in the airplane on and off the water. She is available as a kit or a certified SLSA. Call me with any of your questions or to schedule a flight. If you give me your address I can send you some information as well as a DVD to present at your next meeting. Below are links to a few videos and builder log's for you to enjoy.
